Dear Roland,

Reference your unclassified message LD 982 of 23 June 1954, it is generally inappropriate for FBIS to serve as intermediary in the procurement for EEC of intelligence documents produced by other offices of the Agency.

[Redacted]  
As a general rule, exchange of material between FBIS and EEC should be limited, except in special cases, to products of the two monitoring operations.

In this instance, however, I deem it appropriate to make an exception to general policy. You are authorized to pass to the EEC a copy of the NIS Gazetteer of Albania which has been forwarded to you under separate cover.

Sincerely,

25X1

[Redacted]  
Chief, FBIS
